

Cannon 25 Watt

Single source LED with IRIS Reflector produces Over 1000' of Usable Light
 The Cannon LED light is the first of its kind to combine a traditional form factor light with the power of a 25 Watt single LED for use on bumpers, light bars and more.

Features

- ▶ Kits with Two Lights and Harness Available
- ▶ First of its Kind Single Source 25 Watt LED
- ▶ CTL-CPZ110 Model is E-Mark Approved
- ▶ Ultra Lightweight Hybrid Construction
- ▶ Weatherproof Deutsch Connector
- ▶ Advanced Heat Sink Design
- ▶ Polycarbonate Lens
- ▶ Patent Pending

Cannon Series Usage Guide

IRIS REFLECTOR ACHIEVES 1000'

The proprietary IRIS Reflector is the first of its kind in the LED market. With IRIS technology, a single 25 Watt LED is able to achieve unmatched distance and intensity with over 1000 feet of usable light.

25 WATT AND 50 WATT SINGLE SOURCE LED

Vision X has teamed up with Luminus to offer the first single-source 25 Watt and 50 Watt LED powered lights.

HYBRID ALUMINUM POLY CARBONATE HOUSING

The Light Cannon features a housing engineered with both aluminum for increased strength and poly carbonate to reduce weight.

UNIVERSAL SINGLE BOLT MOUNTING

Designed for simple installation, the LED Light Cannon features a sturdy, single-bolt universal mounting system.

STANDARD FORM FACTOR

The Light Cannon LED combines the benefits of LED lighting, including low power consumption and 50,000 hour lifespan, with the standard form factor of a traditional HID or Halogen light.

MULTIPLE CONFIGURATIONS

With 13 available covers for the Light Cannon, multiple configurations are available including euro and flood beam covers as well as amber, red, blue, clear and black covers for different conditions.

Available Cover Colors

Clear Covers - PCV-CP1

The clear polycarbonate cover provides protection from the elements while out on the trail or on the dunes. Clear covers are also available in euro and flood configurations

Blue Covers - PCV-CP1B

The blue polycarbonate cover optimizes the Cannon for driving on snow. Blue covers are also available in euro and flood configurations.

Yellow Covers - PCV-CP1Y

The yellow polycarbonate cover optimizes the Cannon for driving in heavy fog by removing the blue light waves to reduce glare back at the driver. Yellow covers are also available in euro and flood configurations.

Red Covers PCV-CP1R

The red polycarbonate cover optimizes the Cannon for driving in heavy dust by penetrating particulate in the air. Red covers are also available in euro and flood configurations.

Black Covers - PCV-CP1BL

The black out covers allow for street legal applications and operate as a safety indicator by glowing in the dark.

Technical Information

| PART# | Beam Pattern | Raw Lumens | Dimensions | Weight | Wattage |
|---------------|--------------|--------------|------------------|---------------|--------------|
| CTL-CPZ110 | 10° Narrow | 2,500 lm(ea) | 120/110.7/146 mm | 0.920 kg | 25 Watt |
| CTL-CPZ110KIT | 10° Narrow | 2,500 lm(x2) | 120/110.7/146 mm | 0.920 kg (x2) | 25 Watt (x2) |

Available Cover Beams

Protective Cover - PCV-CP1

Transparent polycarbonate covers provide increase protection for Light Cannon from harsh conditions.

Euro Cover - PCV-CP1EU

The flat horizontal beam is designed to provide both peripheral and forward lighting while staying out of the eyes of oncoming traffic.

Trail Flood Cover - PCV-CP1FL

The Trail Flood beam pattern is designed to illuminate from the bottom of the ditch to the tree tops while trail riding. This low speed flood lights upcoming trail hazards.
